Computer Science undergraduate with a strong foundation in **Data Structures, Machine Learning, and Software Development**. Solved **100+** **LeetCode** problems and built **ML-based prediction systems** using **Python** and **Scikit-learn** for real-world applications.

Education

Chitkara University

B.E - Computer Science and Engineering - CGPA: 9.30

2024 – 2028

Himachal Pradesh

CMS Guru Kashi Public School

CBSE- PCM - Percentage: 80

2024

Bathinda, Punjab

Technical Skills

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend & Database: Node.js, Express.js, MongoDB, MySQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Machine Learning: scikit-learn, Regression, Classification

Tools: Git, GitHub, Postman, VS Code

Experience

Content and Creative Head

August 2025 – Present

Chitkara University ISTE Student Chapter

- Contributed to content creation and promotion for technical events including *Escape Challenge 2025, From Idea to Prototype to Startup*, and *Design Thinking and Innovation*.
- Contributed to content design and coordination of workshops, hackathons, and speaker sessions organized by ISTE.

Technical Committee Member

September 2025 – June 2026

Chitkara University

- Assisted in organizing major university events including the Freshers' Party, *Republic Day (26 January)* celebrations, and *Himachal Statehood Day*.
- Supported coordination of logistics and technical requirements for large student gatherings and cultural events.

Projects

Employee Management System — React.js, Tailwind CSS, Context API, LocalStorage

- Developed an employee management system with separate Admin and Employee dashboards featuring role-based login.
- Implemented task assignment, task status tracking, and state management using React Context API and LocalStorage.

UniConnect — React.js, Node.js, Express.js, MongoDB

- Building a full-stack university networking platform to enable students to connect, collaborate, and share opportunities.
- Implementing secure authentication, REST APIs, and MongoDB integration using the MERN stack.

Research Work

Ongoing research on *"Early Prediction of Preeclampsia Risk Using Machine Learning for Clinical Decision Support"* using **Random Forest** models for early medical risk prediction.

Achievements

- Solved **100+** **Data Structures and Algorithms** problems on **LeetCode**.
- Secured **2nd place** in **CodePhy 3.0** by developing Python-based game **Ping Pong Game** using Pygame.
- Received an acknowledgment from **Benemérita Universidad Autónoma de Puebla (BUAP)**, Mexico for contributing to a **hybrid workshop on Automation** with the talk **"KaizenShift"**.
- Recognized with a **Certificate of Appreciation** from **IAS Baddi** for **contributions to community service activities**.

Leadership & Extracurricular

- Participated in **NSS drill performances** on **Independence Day (15 Aug)** and **Republic Day (26 Jan)** as part of university celebrations.
- Designed **document cards** and **promotional posters** for NSS and university events.
- Collaborated with NSS members to support **event organization and coordination**.
